

{ PAIN vs EFFICIENCY: Sharepoint 2010's Social Media Integration }

Sharepoint 2010 Social Media Integration Workshop: Friday August 30, 9:00 am

\$99 student

3-hour session

This Boot Camp covers:

The "Efficiency"

Lecture and interactive learning session regarding Sharepoint 2010's Social Media integration tools

The "Pain"

Lecture and interactive learning session regarding the loopholes and danger spots to avoid as the speed and ease of social media becomes MORE accessible

Experts Interaction

Q&A sessions with Lacy and Gavrilu to ask specific application questions.

Course Target Audience:

Any IT professional, Sharepoint Developers, business leadership in any company that uses Sharepoint

BE CAREFUL WHAT YOU WISH FOR. Microsoft's revolutionary Sharepoint® 2010 has hit the streets. It features an AMAZING suite of social media integration tools which allow any employee with Sharepoint access the ability to broadcast virtually anything in real time. That's good ... right?

LANtech TRAINING is putting on a special workshop to cover these social media integration tools ... and their consequences.

Radu Gavrilu, LANtech Training president & Sharepoint expert, will lead a learning session regarding these new social media tools. The takeaway is a functional knowledge of how efficient Sharepoint makes "getting the word out." Everybody loves "efficiency," but does it come with a price?

Nationally recognized social media guru **Kyle Lacy** will put these innovations into context. Is giving this much control and speed (from within a corporate sponsored tool) to any employee such a good idea? This is where the "pain" comes into focus. What potential legal problems should be avoided? How can a plan be set in place to protect your company ... and employees. To be blunt: it is usually easier (and less costly) to avoid an issue than to deal with one.

Register today for this critical workshop at LANtechTraining.com or call 317 / 872-8844. Friday July 30, 9:00 a - noon at LANtech Training center (in the Pyramids).
